(6) Description of Modality.

Energy healing is a holistic healing tool that has been used by numerous cultures for thousands of years. The intent of energy healing is to unlock the body's natural ability to correct misalignments and imbalances that may lead to physical and emotional symptoms.

Please remember that energy healing modalities (including The Emotion Code™ and The Body Code™) are not intended to substitute for care from a licensed physical or mental health professional. Please seek the advice of a licensed professional where appropriate and follow your professional's advice.

(7) Confidentiality.

We recognize that mutual trust is essential to the Practitioner-client relationship and your ability to achieve positive results from energy healing. Accordingly, your Practitioner takes your privacy and confidentiality very seriously and will keep private and confidential all information that you may divulge during the process of purchasing and participating in your healing sessions.

Subject to the exceptions set forth in the following paragraph, your information will not be released to any person or entity unless you grant written permission. If you want your Practitioner to discuss your information with anyone else (such as a friend, family member, or healthcare professional), please let your Practitioner know in writing what specific information you would like released.

PLEASE NOTE: the information you supply to your Practitioner is NOT subject to any legal privilege (such as a doctor-patient or therapist-patient privilege). **Therefore, your Practitioner may release your information without your permission in the following circumstances:**

- (a) When required to comply with a valid subpoena or order from law enforcement, an administrative agency, or a court of competent jurisdiction;
- (b) When your Practitioner forms a reasonable suspicion that you may be engaged in child abuse, elder abuse, or human trafficking; and/or
- (c) When your Practitioner forms a reasonable suspicion that you may be about to cause harm to yourself or others.

If your information is released without your permission in one of the above-listed circumstances, only the minimum required information will be released and you will be informed in writing where legally permitted.
